

**Conference:  
Including non-formal sector qualifications  
in the national qualifications framework -  
the experiences and solutions of 7 European countries**

Date: 9 November 2017 (Thursday)

Venue: Czech Republic, Prague, Jurys Inn Hotel

Time: 9.00 – 17:00

**Conference description**

The aim of the conference is to present and discuss organisational and financial solutions regarding the inclusion of non-formal sector qualifications in the national qualifications frameworks (NQF) of seven European countries: Czech Republic, Croatia, France, Hungary, Ireland, Poland, Scotland.

By non-formal sector qualifications we mean qualifications awarded outside traditional formal education systems (general, vocational, higher education). During the conference, different aspects of the inclusion of qualifications in NQFs will be discussed: which institutions are responsible for managing the NQF? What is their role? Which institutions are responsible for the inclusion of qualifications? Which types of qualifications can be included in national qualifications frameworks? Do the non-formal education qualifications included in the NQF „become part of” the public domain? What are the costs of including non-formal sector qualifications in the NQF? What is the rationale for the adopted solutions?

The conference is targeted to national decision makers and stakeholders involved in the process of developing systemic solutions on including qualifications and developing national frameworks. The conference will be held in English. Simultaneous translation into the Czech language will be provided.

The conference is organised within the NQF-IN project: *Developing organisational and financial models for including non-formal sector qualifications in National Qualifications Frameworks* financed by the Erasmus+ framework. For more information, see: [www.nqf-in.eu](http://www.nqf-in.eu).
